Betonelli

HEAVY DUTY AMPLITUDE VIBRATORS

MODEL	BN57-6m
Dimensions (Polyyurethane tipped optional)	57mm steel nose
Vibrator Head Length	450mm
Flexshaft	6m and 9m available
Inner core	13mm x 6m
Weight	24kg
Frequency	13,000 vib/min
Ampiltude Air	2.1 mm

The Betonelli 57mm concrete vibrator produces high frequency vibration which allows efficient compaction of low slump concrete mixes . The unique epicyclic design generates higher frequency vibration delivers results as well as longer service life . The rotor of the vibration is supported heavy duty self-aligning bearings that produces superior pendulum motion that causes superior vibration at the tip of the vibrator head.

Outlasts any vibrator on the market!
